

F.A. Wilhelm Construction

18,000 Sq. Ft.
Over \$400,000 Dollars Saved

The Challenge:

- Current layout provided no room for growth
- Needed a more collaborative environment in order to attract and retain a more diverse workforce

"Relocation Strategies resized and redefined our existing cubes and layout saving us money and space. We didn't miss a beat during the transition due to their invaluable expertise!"

Phil Kenney, President
F.A. Wilhelm Construction

The Solution:

- Reallocated space and furniture for 5% growth
- Created a more user friendly environment which fostered collaboration
- Added two additional offices, and 12 workstations with cubicles

The Summary:

- Design of their renovation resulted in additional stations and offices
- Performed a Productivity Analysis to better understand how the space needed to function
- Results of the Productivity Analysis helped to determine what furniture could be reused and re-purposed while making the office more conducive to collaboration
- The client saved money by utilizing existing furniture
