

Medxcel-Trimedx

157,000 Sq. Ft.

The Challenge:

- Move 155 employees in 2 phased weekends
- Blend 5 different workstation types; one product discontinued and unable to be modified
- Specify new to incorporate expansion furniture with existing
- Coordinate 4 different vendors supplying furniture and labor crews for move

"Our move was successful due to the skillful management of time and vendors Relocation Strategies provided. Using their experienced staff to manage our move enabled us to continue our focus on managing our business creating a smooth transition with minimal disruptions to productivity!"

Debi Fougousse
Executive Assistant, Medxcel-Trimedx

The Solution:

- Established critical deadlines
- Issued multiple spreadsheets and color coded plan to client, moving and installation teams
- Developed detailed sequencing schedules
- Held pre-move meetings with project team and multiple move instruction meetings with staff

The Summary:

- Reused 99% of existing furniture
- Seamless integration of existing and new furniture
- Minimized downtime, working with construction delays
