

# Monarch Beverage

## 100,000 Sq. Ft.

### The Challenge:

- Relocate 650 employees
- Coordinate move around annual NASCAR Sprint Cup Points Race (one of Monarch's busiest weekends)
- Determine new furniture needs

*"In reference to our company move of over 650 employees and 500,000 sq. ft. of ware-house and office space, I cannot overstate the value of having chosen Relocation Strategies as a business partner. They streamlined our move processes and insured that we met all schedule deadlines while coming in under budget. It can't get any better than that. I strongly recommend Relocation Strategies to anyone who is contemplating a business move of any size."*

### The Solution:

- Phased move over 4 weekends
- Inventoried and assessed all existing furniture for possible reuse
- Specified and bid all new furniture needed

**Represent of Facilities**  
Monarch Beverage

### The Summary:

- Reused 70% of existing furniture
- Managed bids for furniture, data cabling, audiovisual, paging and move
- Successfully moved all employees with minimal down-time
