

Cushman & Wakefield

17,600 Sq. Ft.

The Challenge:

- Relocating from the 13th floor to the 17th floor in one weekend
- Inventory of all existing furniture, cubes and office equipment
- Removal of existing furniture

"Relocation Strategies always delivers excellent results for the clients we refer, so when it was time to move our office, it only made sense to bring them on. I expected that they would provide great service, but now having been a direct beneficiary of their expertise, I have to say that their value to the project was remarkable. We will continue to refer Relocation Strategies to our clients and can personally attest their value!"

The Solution:

- Creating project calendars with critical dates and deadlines
- Documenting existing furniture to be resold or donated
- Bidding of move services

Chris Yeakey
Cushman & Wakefield

The Summary:

- Minimized downtime by moving over the weekend
- Saved money by bidding services
- Coordination of donations of existing furniture
