

CleanSlate New Office: After 7,713 Sq. Ft.

“Relocation Strategies was instrumental in assisting us with determining how much, how to utilize and how to design our new space in a productive engaging way for our team. The time spent on the reuse of our furniture saved us money and time. We would recommend Relocation Strategies to others looking for move management, space planning and design expertise.”

John Loveys, President & CEO
CleanSlate

Relocation Strategies provided an end to end solution for CleanSlate including:

- Workplace Productivity Analysis®
- Space Planning/Test Fit
- Design & Construction Drawings
- Furniture Specifications/Management
- Move Management

CleanSlate Old Office Space: Before

CleanSlate provides dedicated practices and specialized consulting services around Cloud, Enterprise Integration, Enterprise Applications, and IT Asset Management. When moving to a new location and being unfamiliar with the buying options or having a large budget for artwork, their original plan was to purchase from an online or catalog furnishings retailer. After a recommendation from Relocation Strategies, however, CleanSlate became aware of High Frequency Arts' services providing artwork consulting and sourcing designed around the company's identity, goals, and budget. This strategy included a phased, budget-friendly approach to obtain original artworks from a variety of local artists for similar investment, finishing off the space with pops of color and visual interest.
