

Midwest Associates:
4,000 Sq. Ft.

Midwest Associates has been growing and it was time for new office space. They wanted to include all their team to obtain feedback on what helps them be productive in their workplace.

“Melissa and her team helped us start the move process by evaluating and defining our space needs. Knowing the types and amount of space we truly needed was very helpful during our office search.”

The new office is vibrant and will help retain and attract new talent.

Stacy Carey, President
Midwest Associates

Relocation Strategies provided the following services to Midwest Associates:

- Workplace Productivity Analysis®
- Space Planning
