

## Indy Chamber 16,000 Sq. Ft.

### The Challenge:

- Create a budget for renovation being mindful to reuse existing private office furniture would save funds to be used for other items
- Keep staff productive during a 4 phase renovation

### The Solution:

- Inventory all existing furniture to determine what can be reused
- Make recommendations for new furniture and how to blend it with existing
- Create a bid package for new furniture meeting the budget and time-line

### The Summary:

- Transforming the fourteen year old space to be productive and cost efficient
- Staff spent little to no downtime since planning was extremely effective

Relocation Strategies led the charge for Indy Chamber's office renovation. We are proud of our office space! Our team and guest members now have a collaborative and updated environment to meet and work. We had a fourphases of moving while staying in the space we occupied. Relocation Strategies was instrumental in the planning and overall project and kept stress low and productivity at a high.
