

Lawrence Police Department: 38,000 Sq. Ft.

Challenge:

Garmong Construction was hired to oversee construction for the City of Lawrence Police Department and needed a partner to design and create a FFE RFP for public bid.

Solution:

Relocation Strategies worked with the client to select furniture items that fit their design/budget and put out to public bid.

Summary:

The bids had a \$100k spread, which the low bid was awarded and the project was able to utilize those funds for something else. The client was extremely happy with the end result and the fact it came in under budget and met all their criteria. The \$100k was a 25% savings, since the high bid came in at \$371k and the low bid at \$271k.

"Relocation Strategies was extremely helpful recommending items that met our needs and stayed within our budget. We are thrilled with their services and would recommend them again."

-Liann Wolfe, Director of Communications
