

Browning Investments: After 19,300 Sq. Ft.

“Browning Investments hired Relocation Strategies to provide “Move Management” services to help us transition into our new office at Keystone at the Crossing. From collecting critical information at the initial meetings to moving day, Relo oversaw the whole process to ensure success, even through the pandemic.

We appreciated the thoughtful way Relo helped us blend furniture that was included in our new space and pieces we wanted to utilize from our old office. Relo not only simplified this process for us, but they also helped us find a new home for the furniture that was not needed. Donating the furniture to help organizations in our community was very important to Browning, reflecting our core values and business practices.

Relo did a great job listening to our needs and leading us through all the steps for a smooth move into our new space. We would recommend hiring Relo to save your company money and time.

Adam Chavers | Chief Development Officer
