

Hancock County Jail Project: Approx. 20,000 Sq. Ft.

“BW Construction served as the owners representative for Hancock County project. As part of that project, we were tasked with soliciting furniture for the buildings. Without hesitation, we referred Relocation Strategies to Hancock County. Relocation Strategies was simply fantastic! They took the lead in coordinating all of the furniture design and material selections and helped out tremendously by following all of the public bidding statuses. They brought in multiple vendors, competing to provide options for the county officials to select from that were under their budget. They provided a seamless delivery of this very complicated and cumbersome scope of work. I would not hesitate when recommending them or hiring them on any furniture need.”

Dustin Frye
Director of Construction | BW Construction

Relocation Strategies provided the following services to Hancock County Jail:

- Move Management
- Furniture
