

Duke Realty
86,671 Sq. Ft.
Over \$400,000 Saved

"Duke Realty is the largest pure-play domestic-only logistics REIT in the United States. With properties in 21 major logistics markets across the United States—when the new corporate headquarters location was selected, talks with Relocation Strategies began. The majority of existing furniture in 86,671 square feet was not planned to be utilized. Relocation Strategies created a plan of action to save Duke Realty over \$400,000 with plans for furniture reuse, selling 100% of the unwanted furniture and bidding the move. The team was on-point and everything went seamless in the move of almost 200 associates. The project was a huge success and I would highly recommend Relocation Strategies for any upcoming projects."

Spanky VanHorn
VP Administrative Services, Accounting

Relocation Strategies provided a complete inventory of all existing furniture to utilize in the furniture evaluation process for reuse or auction. In addition, move management services were provided for 200 employees over multiple days and move phases.

Duke Realty utilized Relocation Strategies for furniture and move services including:

- Inventory and reuse of existing furniture
- Coordinating selling of unused furniture
- Acquiring move bids and providing move management
